

Twin Rotor Toppers

The LWC twin rotor topper is available in 9ft. Our new design gives additional strength with improved performance. It offers a cut width of 9ft and is popular for larger areas where access can be limited.

Technical Data

Model	Overall Width	Cutting Width	Rotors	Blades	Gearbox Rating	Weight
Y-1775-014	2.95m	9'0" (2.75m)	2	4	55 hp	587 kg

Specification

- 3mm Canopy with box section frame for added strength
- PTO includes shear bolt protection
- Rubber couplings to absorb shock and protect gearboxes
- Galvanised skids (adjustable ride heights)
- Gearboxes are mounted on a one-piece 12mm frame
- Heavy duty boron blades
- Blade overlap (30mm) to avoid tramlining

Creating solutions in ever changing environments.
